

Red Rich Capelet

Yarn: About 120 grams of Bulky weight yarn

(I used 4 balls Peirrot Yarn Kira Kira Kids which are 30 grams and ~43m each)

Gauge: 12 sts= 4 inches (10 cm) on size 10.5

Needles: - Double pointed 10.5's

- Circular 15's

Size: About a ladies S/M or a child's L/XL

Finished measurements: - Neck circumference = 16 inches (40 cm)

The increase rows in the main part of the body are worked so that the yo form a swirl.

This is accomplished by knitting one more stitch on each increase row before the yo

than on the previous increase row. The formula is this:

knit stitches = $6+N$, where $N=0,1,2,3,\dots$

The first increase row that this formula is used on is row 24, because row 22 is really just a setup row.

Cast on 48 stitches on size 10.5 needles:

Row 1: *P2, K4* repeat from * to end of the row

Join in round and work K2, P4 rib for 20 rows.

Switch to size 15 needles:

Row 21: Purl

Row 22: *K6, inc 1 st, repeat from * to end of row (8 stitches increased)

Row 23: Knit

Row 24: *K6, yo, repeat from * to the last 2 stitches, K2 (N=0)

Row 25: Knit

Row 26: *K7, yo, repeat from * to the last 2 stitches, K2 (N=1)

Row 27: Knit

Row 28: *K8, yo, repeat from * to the last 2 stitches, K2 (N=2)

Row 29: Knit

Row 30: *K9, yo, repeat from * to the last 2 stitches, K2 (N=3)

Continue in pattern knitting every odd row and working increases on every even row until $N=14$ or until desired length.

Row 82: *K20, yo, repeat from * to last 2 stitches, K2 (N=14)

Row 83: Purl

Cast off loosely and weave in ends.

For personal use only.
